

## Plan of action Workshop for Oilseed Seed Hub, IIOR, July 10, 2018

Execution of Oilseeds Seed Hub project was started with the **Plan of Action Workshop** at IIOR on 10-7-2018. All the participating crop institutes and stake holders – breeders and seed producers participated. Dr A. Vishnuvardhan Reddy, Director IIOR and Nodal Officer for Seed hub discussed in detail about the exact operation of seed hub taking stock of available basic seed and the latest variety. The process of certification to be ensured with the respective certification agencies. There were proposals for change of seed hub centres, change of varieties, flexibility in operation of infrastructure fund as per the requirement, lifting of seed, etc. After a thorough discussion, it was decided to compile the major modifications required from each of the oilseed crop and submit to DAC for obtaining approval for the changes proposed.
